RBC-2

The most accurate, most versatile pitching machine ever made!

The RBC-2, with our unique Soft-Tread pitching wheels, is designed specifically for throwing real leather baseballs and softballs. Also throw dimpled balls and tennis balls.

Shown set up to throw baseballs (left) and softballs (above).

Notable Features Include:

- Speed range 20 - 100 mph
- Individually controlled variable-speed motors allow you to throw pitches with any spin.
- Head tilts to deliver pitches from any angle.
- 3-Axis swivel base and frame allow machine to pivot to throw pitches, grounders, or flyballs to any location.
- Easy conversion from baseball to softball.
- Built-in transport wheels.
- Runs on 110 Volt AC or generator.
- Weight: Baseball - 98 lbs.
Softball - 91 lbs.
- **5-Year Limited Warranty**
